

LIFE LINE CAPACITOR KIT

TARGETED APPLICATIONS

- HVACR replacement of primarily dual run capacitor:

SPECIFICATIONS

- Life-Line Capacitor Kit includes:
 - 6 best in class Motor Run Capacitors
 - 2 Life-Line "Spider devices
 - 1 Capacitor Mounting Hardware Kit
 - 1 Device Mounting Hardware Kit
 - 1 Robust Carrying Case
- The Life-Line Capacitor Products are industry leading and patent pending.
- Utilizes Parallel Capacitance Technology.
- UL approval construction for up to 600 VAC and 15 Amps.
- Capacitors featured in the Life-Line Capacitor kit are either:
 - Genteq branded premium life capacitors (meeting EIA-456 Industry Reliability Standard for PROLINE branded value line of capacitors (meeting IEC-252 Class B Industry Reliability
 - Replacement values applicable for both 370 VAC and 440 VAC applications.
- Approx. Kit dimensions: 11"L x 7.5"W x 5.5"D (8lbs.).

FEATURES

- Easy to use space saving design.
- All inclusive installation hardware and user friendly Application Guide.

BENEFITS

- Life-Line capacitor Solutions save contractors up to 70% when compared to multi microfarad
- The Life-Line capacitor Kit reduces inventory cost and frees up vital truck space.
- The Life-Line Capacitor Solution utilizes proven capacitor products trusted by major OEM's for
- Improves distributors, product offering, repeat business, and profitability.
- Replace 48 Different Ratings (over 85% of the ratings that are seen in the field today).
